15. If more than one bid is offered by any one party for the same product, by or in the name of his clerk, partner, or other person, all such bids will be rejected. A party who has quoted prices to a bidder is not thereby disqualified from quoting prices to other bidders, or from submitting a bid directly for the work.
16. The MOA may reject any unbalanced bid if it is in the best interest of the MOA. A bid is considered unbalanced, when in the opinion of the Purchasing Director, the bid allocates a disproportionate share of costs to one or more bid items and reduces the costs of another bid item or items, and if there is a reasonable possibility that the bid will not result in the lowest overall cost to the MOA.
17. When the Bidding Documents contain a basic bid and additive alternates, the low Bidder will be determined by the lowest combination of the basic bid and as many additive alternates as may be chosen in the order listed in the Bid. The Purchasing Director may bypass any additive alternate whose selection would cause the Contract to exceed the funds available.
18. The Purchasing Director will use the list of priorities in the bid schedule to determine the low bidder only. After determining the low bidder, an award may be made on any combination of the bid items provided: (1) it is in the best interest of the MOA; (2) funds are available at the time of award; and (3) the low bidder's price for the combination to be awarded is less than the price offered by any other responsive, responsible bidder.

Prompt payment terms will be utilized to determine final net price offered. Any prompt payment terms lower than 1% and net 15 will result in payment terms of NET 30. If bid includes prompt payment terms, bidder will include payment terms on the Bid Proposal Page. **NOTE: The prompt payment period will commence upon receipt and acceptance of the supply/service or receipt of a valid invoice; whichever occurs last.**

- A. The term of the contract shall be for one year from the date of award with options to extend the term for three (3) additional one-year periods upon mutual consent of the parties.
- B. The subsequent award of a contract does not restrict the Municipality of Anchorage (MOA) from renting Traffic Control Devices from other suppliers nor does it further restrict the Municipality from purchasing or renting items in the bid schedule from other vendors in order to meet the service needs of the Municipality.

2. Scope of Work

- A. The contractor shall submit a Traffic Control Plan (TCP) for any project designated by the ordering Department. The plan shall include sufficient equipment to ensure adequate traffic control without excess as prescribed by the Manual of Uniform Traffic Control Devices with Alaska Supplement. For all standard TCP's, the contractor shall provide an acceptable TCP within three (3) days depending on the complexity of the project. When required to do so for quick-turnaround projects, the contractor shall provide an acceptable TCP within 24 hours of notification during normal working hours. Should the contractor default on the required turn-around time for the TCP, the price for the TCP will be reduced by 20% per day until the TCP is received. Should this penalty be enforced, email backup indicating when the TCP was requested and when an acceptable TCP was received and approved by MOA Traffic Control will be communicated to the contractor with any short payments of invoices. There will be a maximum of three (3) TCP requests per department per day.
- B. The contractor shall be available on a two (2) hour notice, day, or night, to provide equipment for emergency setups, and a minimum of three (3) hours' notice for nonemergency setups. If the contractor is unable to meet the required start time, the Contractor shall immediately contact the department to explain any extenuating circumstances along with a proposed, realistic start time. Should this penalty be enforced, the department will provide email backup of their notification to contractor that traffic control was setup more than 15 minutes after the required start time to include location, date and requested start time. The email should indicate when and how the department had notified the contractor of the TC requirement.
- C. The contractor shall monitor and maintain all Traffic Control Devices as may be necessary or as may be ordered to ensure the safety of the public as well as those engaged in connection with the work. It shall be the contractor's responsibility to maintain all Traffic Control Devices for the duration of any project, including but not limited to throughout the night hours, weekend, holidays, and any period of inactivity and to check those warning devices a minimum of once daily and as often as required to assure they are in correct position and are operating properly.
