Design Service for Port of Alaska Terminal Replacement**

**Addendum No. 01
11/16/2022**

TO: PLANHOLDERS

The contract documents for the referenced project are clarified and amended as follows:

Responses to Bidder's Questions

1. Question: Would using 11x17 pages for tables/organization chart/graphics be permitted?

Answer: Yes

2. Question: Bidder is aware that a crane load and a crane-wharf interaction analysis has been completed. Will the port be providing crane loads and crane-wharf interaction information to prospective bidders?

Answer: This information will be provided to the selected DOR during negotiations of fee

3. Question: Following award, will the PAMP crane specialist, engaged on the preliminary analysis, remain involved in the design, and therefore provide input and review the wharf designer's crane-wharf interface design?

Answer: The PMC's Crane Specialist will be involved during each design review milestone. The selected DOR shall provide their own crane specialist to support their work

4. Question: Are the project examples (minimum five) requested in "4.4.5. Team Experience" to be treated as separate from the three items under "4.4.6 Relevant Specific Design Experience?" if yes, are we required to provide additional project examples to demonstrate experience in these items?

Answer: 4.4.5 is asking for specific projects that are similar to the work at hand. 4.4.6 is asking for experience in specific details of the project. Bidders are expected to provide a broad knowledge of the firm's experience in those specific areas in which repeat projects from the 4.4.5 can be used. In other words, we are not asking for specific projects in 4.4.6 – but their experience which may be (and hopefully is) many projects, that show experience in those specific areas.

5. Question: In light of the upcoming holidays can the submittal date be extended by a week to December 8th?

Answer: Yes.
